

## Programme Management Apps

## What is MaturityPoint?

MaturityPoint<sup>™</sup> is the world's first truly configurable Maturity Planning & Assessment tool for the modern Enterprise. It is a simple yet powerful SharePoint application that helps organisations begin their journey towards sustainable and continuous business improvement with minimal investment and maximum ease of use. It has been developed by Complexus Pty in partnership with Bestoutcome.

### **Core features**

- MaturityPoint can be used to assess any business capability across the Enterprise.
- Use generic or custom defined 5 step models
- You can configure assessments with any number of attributes.
- MaturityPoint assess four key areas of maturity:
  - Department Maturity
  - Process Maturity
  - Product Maturity
  - Service Maturity
- An aggregated score of the overall Enterprise maturity is automatically calculated from these assessments.
- All the basic elements of best practice from various maturity models have been combined into a single SharePoint App, which you can easily tailor to suit your own organisation
- Results can be exported, for communication with stakeholders.
- Teams can collaborate and perform maturity assessments in one place over time

#### How does it work?

- The software runs as an App in SharePoint.
- It runs in on-Prem SharePoint 2013 and O365 SP Online.
- You start the assessment by answering a set of simple questions with multiple-choice answers.
- Once the assessment is complete it is saved, dated & time stamped.
- You can edit and re-score your assessment at any time.
- One touch export to PDF to SharePoint, desktop and mobile.
