PM3datamart

## Giving you the information you need, when you need it

PM3 already has over 150 standard reports available, which can be filtered and selected as required. However, sometimes you need to bring together information that just isn't easily accessible from core PM3 or the standard reports.

PM3datamart opens up the entire PM3 database to you, allowing secure, controlled access to all the information it contains.

PM3datamart has two modes of operation :

✅ Using a report writing tool to access the datamart directly in real time, returning data to the private desktop

✅ Using a tool to extract data from the datamart and save it to a shared company database, on which every report writer can run. This has the advantage of allowing data to be integrated with other data base systems of the company.

This means that the information that you need is always available, whenever you need it.

> " The DataMart is just what we needed, it has given PM3 real traction. We can now embed PM3 into our processes and management reports, which gives me and the Board far greater visibility over our change programmes.
>
> **Gordon Maxwell, Project Delivery Manager at Willmott Dixon**

PM3 is designed as the central hub providing "one version of the truth" on your entire portfolio of projects and programmes.

PM3datamart gives you full access to all of this information, allowing you to manipulate it in any way you choose.

PM3datamart opens up true Business Intelligence opportunities for your entire portfolio.

How does it work?

✅ Secure web services in basic REST format

✅ Works with any report writer that supports :

- Web Service data access

- Provision of credentials

Business Intelligence at your fingertips

Use your preferred report writer to extract data from PM3 in real time, including:

- ✓ Crystal Reports
- ✓ Business Objects
- ✓ Microsoft Power BI
- ✓ Excel
- ✓ and others

We provide a pre-defined set of web services, which are expanding all the time.

Excel **SAP** **crystal reports.** **SAP BusinessObjects** **POWER BI**

PM3 works the way *you* do

PM3's been designed *by* practitioners *for* practitioners so it works in the same way you do. It mirrors your world, supporting and strengthening your business processes. PM3's Outcome-Driven view of all your initiatives maximises the value of all your programme and project investments.

> **PM3 is a true business solution. It is cloud-based, secure, light-touch, quick, intuitive, simple to configure, and can be up and running in less than an hour. PM3 requires minimal training and managers can do their regular updates in less than 5 minutes.**

Five reasons to use PM3datamart
- ✓ One version of the truth
- ✓ Real-time access to all PM3 data
- ✓ Full flexibility to mix and match extracts
- ✓ Filterable extracts
- ✓ Secure access from anywhere
